

CATALOGUE OF MIDDLE FACING HEAD DRACHMS OF THESSALIAN LARISSA

SERIES I

Type A. Long-haired head r./horse crouching l. (Herrmann Series L, pl. vii, 4)

Herrmann recorded only one example, in Berlin.

Obv. Large female head three quarters r., wearing ampyx, pendant earring, and wire necklace, with long upper lip and prominent round curl to r. of face amid stringy locks; dotted border. As die wears, breaks appear above head and thin lock parallel to prominent round lock to r. of face is obscured.

Rev. ΛAPI above, ΣΑΙΩΝ in ex., with final letter curving up under tail, bridled horse crouching l., about to roll. Most dies have retrograde letters in the legend, as noted.

O1. Large female head three quarters r., wearing ampyx, pendant earring, and wire necklace; dotted border. Small flaw develops, connecting hair on crown of head to dotted border at 1:00, first visible when O1 is paired with R2. Subsequently two additional flaws develop, also connecting top of head to dotted border, visible when O1 is paired with R5.

R1. ΛAPI above (P retrograde), ΣΑΙΩΝ in ex., with final letter curving up under tail, bridled horse crouching l., about to roll. Diagonal flaw rises forward from cannon of rear leg.

- a. 6.06 g Münzhandlung Basel 8, 22 March 1937, lot 267.
- b. 6.07 g Giessener Münzhandlung 40, 7 April 1988, lot 169.

R2. ΛAPI above (P retrograde), ΣΑΙΩΝ in ex. (N retrograde), with final letter curving up under tail, bridled horse crouching l., about to roll. Large lettering; horse's raised foreleg nearly touches hoof of rear leg.

- a. 5.94 g 3 *SNR* 79 (2000), 1. Thessaly hoard, c. 1996 (*CH IX*, 87).
- b. 6.00 g Schlessinger 13 (Hermitage), 4 February 1935, lot 816.

R3. ΛAPI above, ΣΑΙΩΝ in ex. (N retrograde), with final letter curving up under tail, bridled horse crouching l., about to roll. Similar to R2, but with mane nearly touching Λ, thicker ex. line, thinner tail.

- a. 6.01 g Giessener Münzhandlung 40, 7 April 1988, lot 168.
- *b. 5.89 g [CNG On-line Auction 30, lot 62802, archived on Wildwinds.](#)
- c. 5.72 g 3 Cambridge, *McClellan* 4623, pl. 173, 18. Reverse die identity not entirely certain.

- R4. ΛAPI above, ΣAIΩN in ex. (N retrograde), with final letter curving up under tail, bridled horse crouching l., about to roll. Short ex. line, slightly curving. Many flaws: vertical die break from left edge through horse's head into ex., obliterating letter Σ; a finer vertical flaw between letters Λ and A to back, turning r. to cross hindquarters; oblique flaw from letter I to hindquarters, where it crosses second flaw; shorter flaw crossing hocks of hind legs; roughness in field under horse's belly.

- *a. [Private collection, featured in Aeqvitas.com.](#)

- O2. Large female head three quarters r., wearing ampyx and pendant earring; dotted border. Similar to O1, but hair to l. of neck is straighter, and several locks to r. longer, touching or crossing the dotted border. Small flaws in eyes, beneath irises. A new flaw develops at outer corner or proper r. eye, visible when O2 is paired with R2–R4. The die later deteriorates further, and when paired with R5 shows filling at inner corner of proper r. eye, flaws on upper lid of same eye, on upper lip, and at hairline along l. side of face. It is in yet later state when paired with R6.
